

KinderSign – Unassign Provider from Android Tablet

If a Provider ID changes or if a Provider wants to transfer a device to another of its locations, it is necessary to unassign KinderSign from that tablet. Once you unassign your Provider from the device, you will need to complete the KinderSign Device Registration process.

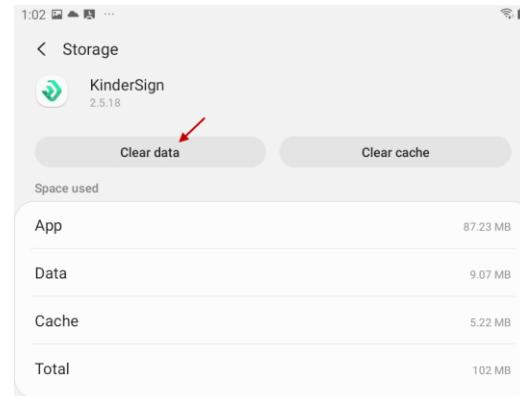

A On the home screen of your tablet, locate the KinderSign  icon. Hold down the icon until a menu appears. Tap **App info**.

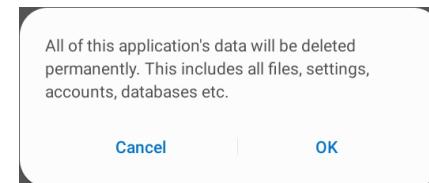

B Tap **Storage**.

C Tap **Clear Data**.

D The system generates a message asking you to confirm that you want to delete the data of this application permanently. Tap **Delete** if you want to proceed.

E You now need to register this device to your new Program. Tap on the KinderSign icon  to open.

Tap Scan below to scan the QR code
on the sign-in sheet
